L\$_wood 19 NATURAL

L\$_wood 19

The image shows a detailed view of a light-colored wood surface, likely oak, characterized by its distinct grain and several prominent knots. The wood grain runs horizontally across the frame, with varying shades of tan and beige. The knots are dark, circular or oval-shaped areas where the grain lines curve and swirl. The overall texture appears smooth but with natural wood grain irregularities.

L\$_wood 19 OLD

L\$_wood 19 BROWN

The image displays a detailed view of a light brown wood surface. The grain is characterized by wavy, horizontal lines that vary in thickness and color, ranging from a pale tan to a slightly darker, more saturated brown. Several prominent knots are visible, each with a distinct, circular or oval shape and a darker, more textured center. The overall appearance is that of a natural, solid wood material with a smooth finish.

L\$_wood 22 M1

L\$_wood 22

The image displays a detailed view of a wooden surface. The wood grain is a mix of straight and wavy lines, with varying shades of tan and light brown. There are several fine scratches and a more significant dark, circular stain or hole on the right side. The overall texture appears slightly rough and aged.

L\$_wood 147

The image shows a close-up of a light-colored wood surface, possibly birch or maple, characterized by its wavy, undulating grain pattern. The wood has a warm, pale tan hue. Two small, dark, circular marks, likely insect holes or knots, are visible on the surface. One is located in the lower-left quadrant, and the other is in the center. The lighting is even, highlighting the natural texture and grain of the wood.

L\$_wood 166 BROWN

L\$_wood 166 NATURAL

The image displays a detailed view of a wood surface with a natural grain. The color is a warm, light brown or tan. The grain pattern is complex, featuring a mix of straight, wavy, and swirling lines. There are several prominent knots and smaller imperfections scattered across the surface, which are characteristic of natural wood. The texture appears slightly rough and organic. The lighting is even, highlighting the subtle variations in tone and grain structure.
